Re: Docket No. 99P-4613 **(PLEASE INCLUDE IN OFFICIAL DOCKET)**

To Whom It May Concern:

I am disappointed that FDA refuses to reveal the file number for Upjohn's approval for rbGH. There is no way that hormone should be approved without Upjohn being made to perform substantial research.

You are now aware that Upjohn and Monsanto are considering a merger and this would be Monsanto's backdoor opportunity to change their formula for *Posilac*.

Sincerely,

Robert Cohen
